Definitions

Explanation of some of the terms used in this document

Co-insurance

The way the cost of a service is shared between you and your plan. It exists in addition to any deductibles. So for example, an 80% co-insurance means that after the deductible has been satisfied, your plan will cover up to 80% of the bill and you would pay the rest.

Co-payment

The fixed amount that you must pay towards the cost of a service each time you use your plan. Most often, co-payments exist in situations where a claim is settled at point of sale. For instance, you might see a drug benefit with a \$2.00 co-pay amount. Regardless of the cost of the prescription being filled, you are required to pay \$2.00.

Dependent

Your Spouse or Child who is insured under the Provincial/Territorial Plan.

Spouse

your legal spouse, or a person continuously living with you in a role like that of a marriage partner for at least 6 months.

Child

your natural or adopted child, or stepchild, who is:

- unmarried
- under the age stated below:
 - for Dental coverage - under age 21, or under age 25 if a full-time student;
 - for Extended Health Care coverage - under age 21, or under age 25 if a full-time student

- not employed on a full-time basis
- not eligible for insurance as an employee under this or any other Group Benefit Program

a child who is incapacitated on the date he or she reaches the age when insurance would normally terminate will continue to be an eligible dependent. However, the child must have been insured under this Benefit Program immediately prior to that date

a child is considered incapacitated if he or she is incapable of engaging in any substantially gainful activity and is dependent on the employee for support, maintenance and care, due to a mental or physical disability. Manulife Financial may require written proof of the child's condition as often as may reasonably be necessary

a stepchild must be living with you to be eligible

Drugs

- must be prescribed in writing by a physician, dentist or other health care professional whose scope of practice within their province/territory permits them to write a prescription;
- must be dispensed by a licensed pharmacist;
- must have been approved for use by Health Canada and have a drug identification number(DIN).
